HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Correction to: *Genome Biol* 21, 215 (2020)

<https://doi.org/10.1186/s13059-020-02141-w>

Following publication of the original article [1], the authors identified an error in the section "Distribution and structure of piRNA clusters" on page 7. The value of the SD is not correct. Instead of a SD 634.885 Kb, it should be SD 16.79.

The correct statement should read: "We used small RNA libraries generated from somatic tissues (female carcass) as well as germline tissues (ovaries) to annotate 1441 piRNA clusters with an average size of 10.911 kb (SD 16.79 kb; max: 139.92 kb) ... "
